7.3 INSTITUTIONAL DISTINCTIVENESS:

A.R.J College of Engineering and Technology was established in the year 2002. From the past 21 years, we are providing good quality education to the students in which most of them were came from the rural areas. Our main objective of this institution is to provide the best professional education to the students who all are came from the rural background and to make their as life as brightful

SKILL ENHANCEMENT -TO SUCCESS CAREER PATH

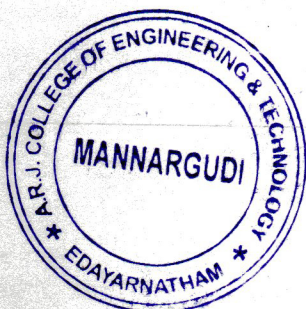

Skill enhancement is a crucial aspect of modern technical education which enables the students to become a competent professional and responsible citizen. The objective of this practice is to develop the technical, communication and research orientated skills of the students to become a future entrepreneur.

To promote knowledge-based and technology driven startups through mentorship, guidance and support.

SKILL ENHANCEMENT INITIATIVES:

THE PRACTICE:

The practical training enhances to experimental learning and practical work encourages self-learning. Practical work makes student in our institution are practically oriented with different skill sets bringing the gap between the institution and industry needs. The practical training conducted for students to familiarize the latest technology in their respective domain. ARJCET given freedom for the HOD and faculty members to organize various programs for the benefit of the students. Students are trained, certified and exposed to the latest trends of industry.

INDUSTRY-INSTITUTE COLLABORATION:

Knowledge sharing with industrial experts in their respective domains helps the students to update and upgrade themselves. MOUs promotes the participation of industry personnels in the development of students quality. Every year industrial visit is arranged for the students to get awareness in the modern technology, future trends and industrial knowledge. Students explore themselves by interacting with the industrial experts and clarifying their technical doubts and gain knowledge. It helps to get an exposure about the industrial atmosphere and subsequent placement of young graduating engineers.

INTERNSHIP PROGRAM:

The internship programs help the students to gain fine tuning in their profession so that they can placed in reputed organizations. Opportunities like this will help them to apply theoretical concepts to practical aspects, enhancing their problem solving ability and self confidence.

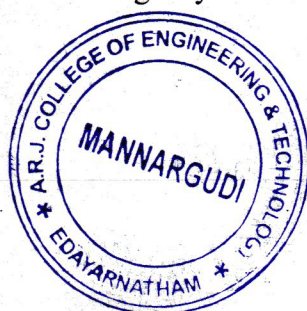

SOFT SKILL TRAINING PROGRAM:

Soft skills play a vital role in the growth and success of the students in competitive world. It helps them to communicate well with other as every profession needs interaction with their colleagues, superiors and marketing personal. Soft skill training helps to improve their personality development and communication skills.

TRAINING AND PLACEMENT ACTIVITIES:

Training and placement cell functions effectively to provide career guidance about the avenue open after graduation, to build a smooth relationship between industry and academics to empower students with life long carrier decision making skills and personality development. Training module is designed to fulfill the industry expectations.

The outcomes of the Skill Enhancement Initiatives empowering rural background students in engineering college in the following ways:

ONE DAY WORKSHOP ON "CHALLENGES AND OPPORTUNITIES OF DOING BUSINESS IN EMERGING MARKETS SUCH AS THE RENEWABLE ENERGY INDUSTRY"

SUMMARY REPORT

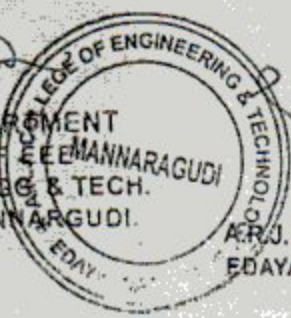

Name of the Program : Challenges and Opportunities of doing Business in Emerging Markets Such as the Renewable Energy Industry
Date : 18.10.2023
Name of the Resource Person : Dr. M. KARTHIKEYAN, M.TECH., M.B.A., Ph.D., DEAN & PROFESSOR, University College of Engineering, Rajamadam

The Department of EEE has organized a One Day Workshop "Challenges and Opportunities of doing Business in Emerging Markets Such as the Renewable Energy Industry". The Program was inaugurated at 10:00AM by Mrs. G.Uma Sathya, Assistant Professor, Department of EEE with a Welcome Address in the A.R.J Mini Auditorium. The Resource Person Dr. M. KARTHIKEYAN, M.TECH., M.B.A., Ph.D., DEAN & PROFESSOR, University College of Engineering, Rajamadam started the session with key challenges such as inadequate access to institutional finance; the price of renewable energy technologies (RETs); the lack of skilled labour; underdeveloped physical infrastructure and logistics; power/dominance of incumbents; inadequate government or policy support in doing Business through Renewable Energy. He addressed the challenges we face is the lack of access to institutional funding, the price of renewable energy technologies, lack of skilled labor, underdeveloped physical infrastructure and logistics, the incumbents are not dominant enough and insufficient government or policy support.

The students were educated that new energy enterprises should establish a diversified new energy technology supply system in the future, based on diversified supply security, vigorously promote the application of new energy technologies, and combine other high and new technologies with new energy application technologies in a green and low-carbon oriented manner. The students had an idea about the complications and Benefits in overcoming the complications in doing business using Renewable energy.
